Your radio has been activated. Please note that in order for your radio to receive our signal, it has to be turned on with the antenna facing skyward and tuned to channel 184 for Sirius radios, or channel 1 for XM or SiriusXM radios. (If your radio is in your vehicle, please make sure that it's not in the garage.)

Send Activation Signal

We have sent an activation signal to your radio. It may take up to fifteen minutes before the activation signal is processed and sent to your radio.

Do not adjust your radio during this process.

### Not near your radio?

Don't sweat it! When you are near your radio, turn it on. Have your ESN/Radio ID handy and call **855 MY REFRESH (697-3373)** to reach our Automated Activation Hotline. Follow the automated instructions to have the signal resent. It's that easy! [View Instructions](#)

#### Here's some important information about your subscription

Your subscription service will automatically renew for additional periods of the same length as the plan you choose (ex. monthly, quarterly, annually) and you will automatically be billed at the then current renewal rate, each time, unless you call SiriusXM to cancel (866-635-2349). Your subscription is governed by the SiriusXM [Customer Agreement](#). Please be sure to read it.

#### When does your subscription start?

This subscription will start on today's date. If you have made any enhancements to your current trial or existing package or extended your trial with a package that contains additional programming, the additional programming will begin today and will be billed now, so you can start enjoying the programming immediately. If you are not receiving the additional programming you expected, you will have to get a refresh signal sent to your radio by calling 855-MY REFRESH. If you have an existing trial and you select a programming package that has less content than your trial subscription the selections you made will not take effect until after your trial is over.
